What is this product?

Type

Boheme Macro Fundamentals (the "Sub-Fund") is sub-fund of BEL CANTO SICAV, a UCITS incorporated in Luxembourg.

Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

Objective: The investment objective of the Sub-Fund is to build a diversified portfolio of securities issued by companies or by governments or their local authorities established, listed or traded worldwide. The Sub-Fund will invest, directly or indirectly through investment funds and ETFs, in fixed income securities and equity securities while seeking to control economic and monetary risk.

Investment policy: The Sub-Fund will primarily seek to achieve its investment objective by investing its net assets in third party UCITS and UCIs (including ETFs) which may represent up to 100% of the Sub-Fund's net assets. Identifying a macro scenario and selecting securities that have historically outperformed under these macroeconomic conditions.

The Sub-Fund's investments in equities will be 50% of the Sub-Fund's net assets. The Sub-Fund's exposure to equities will not exceed 90% of the Sub-Fund's net assets. The maximum exposure to fixed income instruments will be 97% with a minimum of 10% of the Sub-Fund's net assets.

The Sub-Fund can invest up to 50% of its net assets in non-investment grade fixed income instruments. There are no restrictions in terms of duration on these fixed income investments. Investments in emerging markets will be limited to 50%.

The Sub-Fund may invest up to 50% of its net assets in alternative investments. To mitigate volatility due to the periodic fluctuations in foreign exchange markets, the Sub-Fund may engage in derivative transactions for the purpose of hedging its currency risk. The Sub-Fund may invest up to 30% of its net assets in exchange-traded commodities (ETCs).

The Sub-Fund may also invest in financial derivative instruments such as options, futures and forwards to achieve the exposure to the asset classes as well as for hedging purposes.

The Sub-Fund is actively managed in reference to a composite index: 50% MSCI ACWI Index, 30% ICE BofA US Broad Market Index, 10% Bloomberg Commodity Index, 10% Secured Overnight Financing Rate 90D. The Sub-Fund does not neither track the Benchmark nor uses it for portfolio allocation purposes.

Net asset value calculation frequency: Daily, any Luxembourg Business day.

This is an accumulation share class in USD.

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

Depository: J.P. Morgan SE, Luxembourg Branch.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the Sub-Fund's capacity to pay you.

Be aware of currency risk. You may receive payments in a different currency, so the final return you may get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Besides the market risks included in the risk indicator, other risks may affect the share performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		\$10,000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	\$3,660	\$4,940
	Average return each year	-63.40%	-20.95%
Unfavourable	What you might get back after costs	\$8,660	\$8,700
	Average return each year	-13.40%	-4.54%

Favourable scenario: this type of scenario occurred for an investment using a suitable benchmark between 2018 and 2021.

What happens if Santander Asset Management Luxembourg is unable to pay out?

The investor may not face a financial loss due to the default of Santander Asset Management Luxembourg S.A. (the PRIIP Manufacturer). Investors may suffer a financial loss in the event of the insolvency of the depositary, or someone acting on its behalf, which will not be covered by any investor compensation or guarantee scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 per year is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	\$157	\$513
Annual cost impact (*)	1.6%	1.6% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.1% before costs and 3.5% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee, but the person selling you the product may do so.	\$0
Exit costs	We do not charge an exit fee for this Sub-Fund, but the person selling you the product may do so.	\$0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.72% of the value of your investment per year. This percentage is based on actual costs over the last year.	\$72
Transaction costs	0.85 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	\$85
Incidental costs taken under specific conditions		
Performance fees (and carried interest)	The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. The Sub-fund has been recently launched, its performance has been estimated using its benchmark's return, therefore performance fee cost is 0.	\$0
